Professional Summary

Passionate **Frontend Software Engineer** with over **2.8 years** of experience skilled in building responsive, user-centric interfaces and delivering high-quality, maintainable code. Committed to staying current with industry trends and optimizing frontend performance.

Skills

React.js | Node.js | JavaScript (ES6+) | TypeScript | HTML5 | CSS3 | REST API Integration | Git/GitHub | Unit Testing | Redux | AI Code Generation Tools (Copilot, Codex)

Work Experience

Software Engineer: Divami - Design & AI-Led Product Engineering Jul 2023 – Present

PROJECTS

Supply Chain Actions – CBP (Blue Yonder)

- Built a **collaborative comments interface** (React.js, MUI v5, Liveblocks) with real-time threaded discussions, mentions, and deep-link navigation.
- Optimized **MaaS orchestration**, reducing infra costs by enabling scope-based cluster hydration.
- Enhanced **Planning Space UI** for managing simulations and workflows; integrated MFEs (Process Orchestration, Sparq, MaaS, Snowflake) for dynamic insights.
- Performed unit testing using **Jest & React Testing Library**, and end-to-end testing with **WebDriverIO** to ensure quality and functionality.
- Followed **Agile methodology** and actively participated in **Code Reviews & UI/UX Reviews** with peers.

Watermelon – B2B eCommerce Platform

- Built scalable eCommerce platform (React.js, MUI v5) with robust admin and supplier workflows.
- Optimized components for maximum performance across a vast array of web-capable devices and browsers.
- Implemented **JWT-based authentication**, Google Sign-In, and role-based access control in frontend.
- Utilized **Redux** for global state management across the web & mobile application.
- Streamlined **order management, invoicing, payments, tracking, and product operations**.

Software Engineer Intern : Divami - Design & AI-Led Product Engineering Dec 2022 – Jun 2023

Nestor

- Built a **React.js + Material-UI dashboard** for real-time tracking of sales performance and employee productivity.
- Designed intuitive UI layouts and ensured responsive design for seamless user experience.
- Integrated **Jira** for task visibility, accountability, and improved operational efficiency.

Education

Sreenidhi Institute of Science and Technology, BTech Sept 2020 – May 2023

Additional Experience and Awards

- **Awards & Recognition:** Received *Star of the Sprint* (×3), *Rock Star of the Month*, and *Best Squad Award* for delivering critical features, maintaining high-quality code, and excelling in team collaboration.
- **Hackathon Achievement:** Won an internship hackathon by developing an innovative Netflix-themed UI solution with rapid execution.
- **Mentorship & Contributions:** Mentored juniors in JavaScript and React.js through code reviews and learning sessions; actively contributed to recruitment by interviewing and evaluating candidates.
